## Autodesk Inventor Sheet Metal Design

**Course Description:** This three-day course focuses on basic sheet metal concepts and techniques. Building on these skills includes complex modeling practices to form sheet metal parts, assemblies, and drawings. The class will teach students how sheet metal parts are designed and used in industry, review various construction techniques, and learn how to master and automate sheet metal design tools and to document sheet metal designs.

Length:	3 days
Times:	11:00 AM - 5:00 PM
PDH Credit Hours:	10 hours

The suggested course duration is a guideline. Course topics and duration may be modified by the instructor based upon the knowledge and skill level of the course participants. Cancellation/Rescheduling Fee of 25% of the Daily Rate per Student will be assessed for anyone canceling or rescheduling a Synergis Training Class without at least 14 days notice. If applicable, the Cancellation or Rescheduling Fee will be invoiced to you automatically. Classes are confirmed based on the number of students registered and therefore cancellations and rescheduling of classes may affect other customers. Please be sure that you can attend the class dates for which you are registering when you submit your order.
