Autodesk Inventor Cable and Harness Design

Course Description: The purpose of this course is to teach the student the productivity enhancing features of Inventor Professional Cable and Wire Harness. Skills learned in this course will provide the student the ability to use Cable and Wire Harness features to create and place electrical parts, wires, cables, wire routing, harnesses and harness paths, and to quickly create BOM's and assembly documentation productively.

Prerequisites: Completion of the Inventor Essentials class or equivalent experience

Length:	2 days
Times:	8:30 AM - 4:30 PM
PDH Credit Hours:	13 hours

- Working with the Wire Library
- Importing and Exporting Wire Data
- Routing Wires
- Working with Virtual Components
- Creating, Moving, Deleting and Replacing Wires
- Working with Wire Segments (Harnesses)

The suggested course duration is a guideline. Course topics and duration may be modified by the instructor based upon the knowledge and skill level of the course participants. Cancellation/Rescheduling Fee of 25% of the Daily Rate per Student will be assessed for anyone canceling or rescheduling a Synergis Training Class without at least 14 days notice. If applicable, the Cancellation or Rescheduling Fee will be invoiced to you automatically. Classes are confirmed based on the number of students registered and therefore cancellations and rescheduling of classes may affect other customers. Please be sure that you can attend the class dates for which you are registering when you submit your order.
