AutoCAD MEP Plumbing Essentials

Course Description: This course provides comprehensive AutoCAD MEP training on how to design, model, and make construction documents for a plumbing system. The hands-on exercises teach how to lay out systems from schematic design through to the design development and project construction documentation phases.

Prerequisites:

This course requires a working knowledge of AutoCAD® in addition to drafting, design, or engineering experience.

Length:	1 day
Times:	8:30 AM - 4:30 PM
PDH Credit Hours:	6.5 hours
