## Autodesk Revit MEP Essentials for Plumbing Systems

**Course Description:** Autodesk Revit 2017 MEP Essentials for Plumbing Systems is the first of several courses offered through Synergis specifically created to introduce Plumbing Engineers, Designers, Drafters, and Detailers to a foundational knowledge on how Revit's powerful purpose-built Building Information Modeling (BIM) tools create and manage the Plumbing design of a building project. This three day course explores the basic workflow steps to create, modify, coordinate, and document your Plumbing Systems from start to finish.

**Prerequisites:** No previous CAD experience is necessary. However, plumbing design, drafting, or engineering experience is highly recommended. It is also recommended that the student have a working knowledge of Microsoft Windows. Applicable software includes Revit and Revit MEP.
